

We believe that every animal deserves a first, second or even third chance to find a forever home. And we did something about it!

The issue of unwanted animals affects everyone in Northern Sydney and is not going to go away.

SAFE (Sydney's Animals For Everyone) is a not-for-profit registered charity, launched in September 2017 by former staff of the Animal Welfare League.

We are dedicated animal lovers trying to make a difference in animal rescue and rehabilitation. We take in as many abandoned or surrendered pets as we have the room and money for and we ensure they are desexed, vaccinated, microchipped and checked by a vet before being made available for rehoming. We care for cats at SAFE Haven, our Rehoming centre in Roseville and we care for dogs through foster homes.

We offer the following services:

- Adoptions
- Boarding for cats
- Behaviour training

We would love it if you:

- Came to adopt one of our cats
- Boarded your cats with us
- Would like to help out at one of our events
- Make a donation
