

# Handfuls

We need:

- Counting objects (counters)

How to play:

1. Estimate how many in your handful\*
2. Organise the counters so that anyone walking past can work out how many there are by looking and thinking.
  - ⇒ "What is one more?"
  - ⇒ "What is one less?"
  - ⇒ "Who has the most?"
  - ⇒ "Who has the least?"

Optional – find your number on the tape measure / number line / one hundred and twenty chart

Optional – write you number on the calculator

What is the maths?

- Subitising
- Number conservation – total is the same regardless of arrangement
